

Empowering Futures: B-JET 14th Batch Orientation Program Sets the Stage for Global Success.

Date: 27th May 2024

The Orientation program of the B-JET (Bangladesh-Japan ICT Engineers' Training Program) 14th Batch was held on 27th May 2024 at the B-JET center and was organized by the Career and Placement Center (CPC) of North South University and the University of Miyazaki, Japan.

Professor Mohammad Khasro Miah, the Director of the Career and Placement Center (CPC) delivered an inspiring speech highlighting the importance of the B-JET program, which trains participants in Japanese language, culture, study techniques, business etiquette, and technical knowledge. Completion of the program enhances employment opportunities in Japan with certificates awarded by the University of Miyazaki.

Distinguished delegates from the Japan International Cooperation Agency (JICA), including Mr. SHOJI Akihiro, and Ms. KATSUKI Naho, along with Mr. Satoshi Yamawaki, CEO of Castalia Company, and Mr. Taisei Igarashi, a Technology Specialist from Castalia Company in Tokyo, Japan, were in present at this orientation program.

Yuki Morishita, Program Coordinator for B-JET, extended a vote of thanks and introduced the 35 newly selected trainees, who underwent a thorough selection process. This batch of trainees was selected through an intensive admission process conducted by Japanese Industry experts and academicians from BJIT and the University of Miyazaki.

B-JET provides invaluable opportunities for trainees to excel in the global job market, supported by the commitment of the University of Miyazaki and North South University. The orientation program highlighted the program's commitment to excellence and its ongoing success, underscoring its importance in shaping future opportunities for participants, in the Japanese Job Market.
